## EDUCATION

### CERTIFICATE IN USER EXPERIENCE/USER INTERFACE (UX/UI) DESIGN

The George Washington  
University (to be completed  
October 2021)

### BACHELOR OF FINE ARTS IN GRAPHIC DESIGN

Shepherd University

## PROFESSIONAL SUMMARY

Seasoned designer with proven track record of client and user satisfaction looking to apply over 15 years of creative experience to your next project by working collaboratively with cross functional teams to communicate your message concisely and on brand. Extensive visual design experience and project management has made me highly proficient in research, content strategy, process flows, and design solutions.

Diverse background makes adapting to the many languages of the design process from the client, to sales and marketing, to design and development, and everything in between, effortless, helping to minimize miscommunication and costly mistakes. Strong work ethic, self starter, and autonomous worker, but also thrive managing or collaborating with a team.

## PROJECTS {new website in progress, updates available soon}

**EXAMPLE 1:** The Frederick Center, non-profit organization website redesign  
(prototypes: desktop, mobile)

The Frederick Center website provides a wealth of resources and programs for the LGBTQ+ community in the Frederick, MD area, but users struggle to find the information they need and to register for programs, make donations, or volunteer, making users leave the site before completing their desired transactions.

Responsible for project proposal, user research, empathy and user data, competitor analysis, ideation and brainstorming, journey map, style guide, prototyping, testing, and presentation.

*Tools Used: Figma, Miro, GSuite, Otter, Trello, InVision, Zoom, and Social Media*

**EXAMPLE 2:** U.S. Department of Education website redesign  
(prototypes: desktop, tablet, mobile)

Government websites are loaded with information, data, resources, and links to other related websites. The information can often be overwhelming. How can we redesign this website to make the process of learning education policies, data, resources, loan/grant information, updates/news, and other important information easier for the user?

My Role: UX/UI designer

Individual (information architecture, responsive design, user testing, style guide, multiple iterations, and final prototype): Michele Foshee

Team (UI analysis, redlines & user path, initial usability tests, heuristic evaluations, and InVision Boards): Salma Alwi, Michele Foshee, and Christina Kim

*Tools Used: Adobe XD, Figma, InVision, GDrive, and Social Media*

## EXPERIENCE

### **FREELANCE** Frederick, MD *Present*

#### **DESIGNER, ILLUSTRATOR, & ART DIRECTOR**

- Provide creative services, including research, website copywriting, collateral materials, infographics and more to a wide variety of clients with unique needs, desires, and brand requirements
- Work closely and directly with clients and users to understand their unique perspectives and create solutions tailored to their individual needs

### **THE CHILDREN'S GUILD ALLIANCE**

Baltimore, MD  
*Mar '19 - Mar '21*

#### **MARKETING & ART DIRECTOR**

- Completed a cohesive rebranding for the organization's 16 disconnected entities, including a new style guide and wireframing full website redesigns
- Developed user-centered messaging and marketing strategy for the various programs, leveraging both digital and print platforms through a blend of hands-on engagement and team coordination

### **AMERICAN COLLEGE OF VETERINARY SURGEONS**

Germantown, MD
